EDMONTON, ALBERTA, SATURDAY, MARCH 26, 1949

SUBSCRIPTION \$2.00 PER YEAR

Letters to the Editor

Cherhill, Alberta,
March 21, 1949.
Editor, Legal Record, Morinville
Journal, St. Albert Gazette,
Whyte Avenue, Edmonton,
Dear Sir:

In view of the persistent smear campaign against the C.C.F., I have addressed the following letter to Mr. W. F. Kuhl, M.P., which is self-explanatory.

W. F. Kuhl, M.P.,
House of Commons, Ottawa,
Dear Sir:

Although I understand that you are a follower of Major Douglas, I presume that your status as a federal member will prevent you from being purged by the Manning regime as was your fellow Douglassite, A. V. Bourcier, M.L.A. for LaSalle, Alberta. You will therefore probably represent Social Credit in the forthcoming general election.

As the C.C.F. candidate for Jasper-Edson, I represent the only alternative which the electors are likely to choose in preference to you, should you be nominated. I therefore believe that the said electors would welcome the following suggestion:

That you and I should hold one or more joint meetings, preferably including all the meetings in our respective campaigns, at which we would debate resolutions such as the following:

1. Resolved that the C.C.F. is less likely to lead to Communism than is Social Credit.

2. Resolved that the C.C.F. program is more compatible with Christian and democratic principles than is any other.

3. Resolved that only the C.C.F. program offers increased individual liberty and adequate security for the vast majority of Canadians.

I believe that such debates would help to clear up the confusion which is created in the voters' minds when individual speakers make conflicting, unchallenged, statements.

H. E. BRONSON,
C.C.F. Candidate,
Jasper-Edson Constituency.

Municipal Elections

VIMY.—Elections were held last Saturday to contest a councillor's finished term.

Mr. Joe Dusseault contested for the post he has held since the large municipal division with offices in Morinville was formed, against candidate Mr. Hector St. Louis of Picardville.

Mr. Dusseault was returned to office by a majority of over 40. He has been returned for the usual term of three years.

Agricultural Notes

LEGAL.—A meeting of farmers of the district took place last week for a talk by Mr. Fontaine, district agriculturist.

The information imparted by Mr. Fontaine dealt especially with erosion of the soil and the growing of forage crops to hold the soil down. Moving and slide pictures were shown of methods used in the district by farmers with the agricultural department help in controlling and preventing erosion.

Farmers in the district seem to have been paying more attention to these new farming methods and to crop rotation, in the past few years.

Firel Burnt-out families and communities appreciate Red Cross aid in providing emergency housing, feeding, transportation and other relief. At right, a Red Cross Corps member comforts a child rescued from the 1948 British Columbia floods. Provincial divisions of Red Cross organize Disaster Relief Committees across the nation.

ST. ALBERT BRIEFS

ST. ALBERT.—Miss P. Benoit and Miss Y. Lebel of Edmonton visited Miss M. Bourgeois at the beginning of the week.

Newly-born babies of St. Albert are: twin girls to Mr. and Mrs. Alex Zyha; a girl for Mr. and Mrs. Thomas Barry, Jr. and Mr. and Mrs. E. B. Leclair are the proud parents of a girl. Congratulations to all!

Mrs. H. Begg of Santaluta, Sask., is a guest at the home of Mr. and Mrs. S. Bonneville.

We notice that Mr. Alfred Sevigny is back home from the hospital.

Mr. and Mrs. Niel M. Ross left at the week-end for Banff to visit their daughter, Sheila.

Mrs. E. C. Manning, who has been visiting at the home of Mr. N. M. Ross, Sr., left for her home in Martin, N.B., last Tuesday.

Mr. and Mrs. Arthur Sevigny were visitors here Sunday; also Mr. and Mrs. Ray Lafranchise. We are sorry to hear that Mr. and Mrs. Maurice Borle's infant baby died last week.

Mrs. D. G. McDonald underwent an operation last week. We wish her a speedy recovery.

Xavier Lavoie was taken to the hospital Sunday night. We hope he will soon be well again.

LEGAL NEWS

LEGAL.—Mr. Emil Garneau and Mr. Josephat Martineau stopped in Legal for a few days. They were on their way north. They came from Seattle.

A sewing course will be held some time in May. Those wishing to take part should give their names to Miss Eliza Montpetit as soon as possible.

Mr. Roy Berneis, formerly of Legal, died in Morinville last Saturday.

Cash Webster, who was at St. Joseph's Seminary since last fall, is now back in Legal.

Mr. and Mrs. Allan Kaene are the proud parents of a baby boy. Hector Montpetit was rushed to the Westlock hospital last Friday. He was operated on for tonsillitis a week before and complications arose. He is home now feeling much better.

Miss Gladys Graves was home over the week-end.

Walker-Dusseault Successful Candidates

MORINVILLE.—Results of the recent municipal elections are as follows:

Electoral Division No. 2

Figures denote votes for A. Saligo and S. Walker respectively, and rejected ballots.		
Villeneuve	87	23
Ray	42	49
Calahoo	2	221
Total	131	293

Majority for Walker—162.

Electoral Division No. 5

Figures denote votes for J. G. Dusseault and H. St. Louis, respectively, and rejected ballots.		
Vimy	225	51
Pickardville	35	188
Trails End	41	43
Total	331	282

Majority for Dusseault—49.

The first meeting of the new council will be held in April, at the Morinville Municipal Office.

VILLENEUVE NEWS

VILLENEUVE.—The municipal councillors were elected here on Saturday, March 19. Candidates were Mr. Arthur Saligo from Villeneuve and Mr. Stan Walker from Calahoo. The latter candidate was elected.

On Friday, March 11, three trustees were named. These were Messrs. A. Durocher, M. Verstraete and A. Lesburg.

Since the two schools were moved to the village, no special name had been chosen for them. They are, together, officially called the Villeneuve school.

Mr. G. Kroetch spent a few days at the home of his sister and brother-in-law, Mr. and Mrs. A. Borle.

Mr. Arthur Borle is back home after being at the hospital for a spell.

Millet Personals

Mr. and Mrs. Wm. Duchak of Vernon, B.C., former residents of Millet, have returned for a visit. They will be the guests of Mr. and Mrs. Peter Olesky while in Millet.

MORINVILLE NEWS

MORINVILLE.—Mr. W. La-bonte and Mr. Lucien Therberge attended a recent locker convention in Calgary.

Home from hospital are Mr. Louis MacDonald and Mr. Ernest Steffes.

The Morinville Credit Union plans to construct a cement vault with safety deposit boxes. Work on the new project will get under way in the very near future.

A birthday party in honor of Mr. Joe Teller was held at the Teller home on the evening of March 20.

The new employee at the La-bonte's Meat Market is Mr. Joe Bougie.

Cubs Twice Champions

MORINVILLE.—In a sudden-death game between the Fort and Morinville at the Varsity arena Saturday night, the Morinville Cubs came through with a 5-2 victory to take the McKay Trophy Cup for the second year. If they win the cup again next year, the trophy is theirs to keep.

In the first period of play, Fort Saskatchewan scored once, but early in the second period, Ato

St. Albert W.I. Meeting, March 29

ST. ALBERT.—The next meeting of the St. Albert Women's Institute will be held March 29, in the community hall.

Mrs. J. Atkinson, our convener for health education, has invited Mr. McDougall to speak to us on Mental Hygiene as dealt with in the schools.

Knowing that many people outside our institute will be interested in hearing Mr. McDougall, we wish to extend to all a warm welcome to come to our meeting.

School Notes

ST. ALBERT.—With Lent continuing, there will be a card party, sponsored by Grade I and Grade II and also Sr. Lemire's class, on Friday, March 25 at the new school. This is to raise funds for a radio.

Easter is coming and that means the ordeal of Easter exams. Our teachers have promised that our exams will begin early and who'll bet that that promise isn't kept?

Due to Mrs. Blair's absence, Mrs. Sumner has very capably taken over Grades VII and VIII.

The volleyball court has been repaired and the net put up. The boys did get a couple of games in before this last fall of snow.

KIKINO NEWS

KIKINO.—Mr. C. R. Greenwood left this morning to go back to Edmonton. He visited quite a few places on business while out here.

Born to Mr. and Mrs. William Erasmus in the St. Catherine's hospital on the 25th, a girl.

Mr. Alfred Lavaller got into an accident the other day. One horse tramped on his back and they had to rush him to the doctor.

Letourneau come through with a goal to even up the score.

Then the Fort got their second and last goal of the game, followed by markers by Iver Leander and Ato Letourneau to bring the score to 3-2 for the Cubs at the end of the second period.

Leo Douzich and Laurier Letourneau brought Morinville to their 5-2 victory in the last 20 minutes of play.

NEW ADVERTISING RATE SCHEDULE

Recent increases in labor and material costs have obliged us to make some increases in advertising rates effective April 1st, 1949. Following is the standard scale of advertising rates for this newspaper:

DISPLAY ADVERTISING:

Transient advertising 50c per col. inch
Four or more insertions by a local advertiser,
35c per col. inch.

CLASSIFIED ADVERTISING:

2c per word per insertion. Minimum charge 50c

SPECIAL ADVERTISING:

In Memoriam, with or without verse, \$1.00
Engagement Announcement, 75c.
Card of Thanks, 75c.
Floral Tributes, 5c per acknowledgment

LEGAL NOTICES:

First insertion, 15c per count line.
Second insertion, 12c per count line.
Each additional insertion, 10c per count line.

THIS SCHEDULE EFFECTIVE APRIL 1st, 1949

THE COMING ELECTION

The Progressive Conservative Party, which has never won spurs in any Alberta contest, has established provincial headquarters in Calgary. This development is a close follow-up to Party Leader Drenth's statement recently that his party would contest every seat in Canada, including Newfoundland.

Whatever the next election, when held, holds in store we can only say that our feelings are somewhat mixed for the future well-being of the country. There seems no prospect for the Social Credit to win any seats except a few in Alberta, and the CCF party can increase its representation only by division of the anti-socialist vote in places where it is strongest.

There also seems no possibility that the Progressive Conservatives can swing enough votes to win a substantial majority, but it is possible that they will reduce the Liberal majority below the one-half mark required by any party to provide a secure, stable government.

This happened in 1926 when Mackenzie King, lacking an over-all majority had to resign in favor of Rt. Hon. Arthur Meighen, who as leader of the old Conservative party, took the reins of government, but only for a few months. He could not navigate with a minority rule and in the appeal to the electors the Liberals were returned to power for another four years.

We have all seen the unfortunate consequences of governments in other countries such as France and Italy, trying to hold power while lacking a clear majority. It behooves the Canadian people to seriously ponder the question and return to power with a working majority the only party capable of forming a stable government.

THE MARGARINE QUESTION

Under normal circumstances, Canada doesn't need margarine. Providing a butter substitute is tantamount to carrying coals to Newcastle. And if we could pass legislation to again ban margarine in Canada, without afflicting our conscience, nobody in the first nine provinces would raise much complaint. That is because with the exception of Newfoundland we are primarily an agricultural country where dairy products are near at hand and low-priced.

But Newfoundland presents a new problem on an old question. They've had margarine there for a long time and to make it legal in one province and ban margarine in another by the Central Government would be against the spirit of Confederation. The Dominion Government has taken the only course possible—to free margarine of federal restrictions as to legality of sale and leave the problem to be settled in each province by the provincial legislatures.

First Picture of the New Plymouth 4-Door Sedan

The Plymouth Special DeLuxe Four-Door Sedan shown above is one of the 4 new Plymouth models just announced. The others are a Plymouth Special DeLuxe Club Coupe; a Four-Door Sedan and a Club Coupe in the DeLuxe Series. Wider seats, ample head, leg and shoulder room; greater vision, increased safety and comfort are some of the claims made for these new models. Higher horsepower (97); higher compression ratio; automatic choke, and improved fuel delivery are some of the engineering advancements offered in the new Plymouth engine. Eight plastic enamel colours are available.

Sweet Clover Seed Exports

Export of sweet clover seed to the United States in the 6-month period, July 1 to December 31, 1948, was more than three times that of the same period in 1947. Nearly fifteen million pounds of this seed has been shipped to the American market in the first half of the 1948-49 crop year. This exceeds the total amount exported last year and there are indications that the present figure will be raised by several million pounds before the shipping season ends.

Canada is dependent on the American market to absorb surplus quantities of sweet clover seed, and in past years varying amounts have been shipped to the United States. Normal domestic consumption is not large, and, with a record breaking crop of over twenty million pounds harvested in 1948, a large exportable surplus has been available. While Canada harvested a record crop, the United States on the other hand had one of the smallest crops in recent years. These factors have been responsible for the heavy movement of sweet clover seed this season.

Two New Cereals Well Distributed

The successful distribution achieved in 1948 of Saunders and Redman wheat gave considerable satisfaction to the Cereal Division, Experimental Farms Service, Dominion Department of Agriculture.

Saunders, which does best in the area extending from central Alberta north to the Peace River district, is a high-yielding, early-maturing spring wheat variety. It could hardly have come at a better time either, since it provides the perfect alternative for farmers who will be getting out of Red Bobs, now that the decision to degrade Red Bobs has been announced.

Redman, which is most suited to Manitoba and eastern Saskatchewan, is also high-yielding and offers more resistance to leaf rust than other varieties. It is also more drought resistant than Red-

gent, which is the dominant variety in that area at the present time.

Sufficient stocks of Saunders and Redman seed are now available in the areas mentioned and represent two more victories won by the cerealists in their long struggle against drought, disease and insects.

The cerealists improved their position in that struggle during the year, too, by enlarging their base of operations at Lethbridge, Alta. Lethbridge now has a full-fledged cereal breeding laboratory where the plant breeders are in the same building and working in full co-operation with the entomologists and plant pathologists. This marks another step in the closer co-operation and integration of the work of the Experimental Farms and Science Service branches.

One of the first problems to be tackled at Lethbridge will be the development of a new winter wheat variety which will exhibit greater winter hardiness, higher quality and which will produce a better quality pastry flour.

Feed in Britain

British farmers will soon have to pay more for their corn, barley, oats, milfeeds, oilcake, and other feedstuffs. The Minister of Agriculture said that feed costs had been established since September, 1940, and now are considerably below world prices. The government had decided that it would be desirable to raise prices substantially to a level roughly equivalent to the existing prices of home-grown cereals. This is part of the long-term program to promote greater production and utilization of domestic feeding stuffs.

Good Market for Alfalfa Seed

More than ten million pounds of alfalfa seed have been exported from Canada in the 6-month period from July 1 to December 31, 1948. This is considerably more than the total exports for the entire 12-month period July 1, 1947, to June 30, 1948, and compares with less than two million pounds exported in the same 6-month period of 1947. Two factors are largely responsible for the phenomenal increase in export of alfalfa seed this season.

The United States production of alfalfa seed in 1948 was the smallest in a number of years, while production of this seed in Canada exceeded all previous records by several million pounds, with the latest figures placing the crop at more than sixteen million pounds. The American market is the main outlet for surplus Canadian alfalfa seed and the combination of these two factors has resulted in a very keen demand for this hardy northern grown seed at attractive prices and the movement of record amounts from growers' hands.

Ambitious People Of Oil Centre

OPAL—Most of the people in our community are very active and ambitious members. They not only do their own chores and help others, they also spend some of their leisure hours composing. Having heard and read so much about the new oil boom, one of our members writes the following.

OIL IS WHERE YOU FIND IT
The well drills hum and the oil smells burn
But it may make you rich in years to come.
Then who can say, on some bright day,
Those fumes may rise and fade away.
The people then will happy be in this great land of liberty,
Where the flag flies high and the oil runs free.
Now some people like the yellow gold
That comes from the creeks and the mountains old.
But the black gold that runs from the earth you see,
Means added wealth for you and for me.

INTERPROVINCIAL PIPE LINE COMPANY

NOTICE is hereby given that an application will be made to the Parliament of Canada at the present or next following session thereof for a Private Bill incorporating a company under the name of Interprovincial Pipe Line Company, subject to the provisions of any general legislation respecting pipe lines which may be enacted by the Parliament of Canada, for the purpose of constructing and operating pipe lines interprovincially and/or internationally within or outside Canada for the transportation of crude oil or any liquid product or by-product thereof. The applicants will request that the company shall have all the powers, privileges and immunities conferred by any general legislation affecting such pipe lines which may be enacted by the Parliament of Canada and further will request such other powers and corporate provisions as may be deemed necessary for the carrying out of the objects of the company.

Dated at Toronto, Ontario, this 4th day of March, 1949.
J. W. HAMILTON,
Secretary for the applicants
56 Church Street,
Toronto, Ontario.

Now if this oil boom should really open
We might get some good oil wells around Opal
Yes Opal that rip-roaring town
Where excitement runs high the whole year round.
And the people in Opal they never grow old
They even buy bicycles and tear up the roads.
But the farmers are rich and so is the soil,
And they'll tell you straight out
And they don't want any oil.
But when a big oil tank passes this way,
They look at you alyly and softly say
I guess the big rigs are coming our way.
Now old John Price had some real funny land,
With lots of big Jack Pine and piles of sand,
And to his wife one night said he
I believe there's oil beneath them trees.

Now Martha, his kind and faithful wife
Who had worked really hard thru all her life
Sat down to think and then she said
It'll be hard to leave the old homestead.
Next morning old John was happy and gay
And he drove to the oil field just three miles away.
And then to the Big Oil Man John said
I've come to tell you about my old homestead.
The land is poor—not very good soil.
But if you dig there you'll get plenty of oil.
Then the Oil Man looked old John in the eye,
Said O.K. Old Timer, we'll be there by and by.
When John drove away he was filled with delight,
But when he got home he was in quite a plight.
And the very next day he started to worry,

Just how Martha and he could spend all the money.
But Martha said, in her quiet way,
I think it is time John to take in the hay.
The months rolled on and the years passed by,
And old John's homestead remained very dry.
Then one said day in the month of May
Poor Martha lay down and passed away.
Now John was weary, sad and frail,
And he knew he was close to the end of the trail.
But he would often stop to think and sigh,
When he thought of the wealth that had passed him by.
John went for a load of hay in December,
He died the next day and you will remember,
Now deep in the sand they silently sleep,
Where the Jack Pines guard them and the willows weep.

GOURIN NEWS

GOURIN—The saw mill under the management of Mr. Arthur Plamondon has arrived and has started operations. It looks like he will be kept busy for some time as there are lots of logs to saw. Alcide Ulliac is home from Lac la Biche hospital and is well recovered. His baby sister Marie-Anna is still in the hospital. School has reopened after an intermission of two and a half weeks, due to Miss Dalkin, the teacher, being under medical care. Mr. Louis Ulliac, Bill Duigou and Jos Duigou are back from a business trip to the city. Loraine Duigou, daughter of Mr. and Mrs. Jos Duigou from Altmore, is back from the Lac la Biche hospital and is feeling fine. Mr. Albert Bourassa and John Bourassa are back home from the logging camp.

War Brides Make New Homes Here

REDWATER—Due to the oil strike we have people here from all over the world. One is a war bride, Mrs. Reg Ellard. Mrs. Ellard comes from Scotland where she married a Canadian, Reg Ellard. They first made their home in Cold Lake but are now living in Redwater as Mr. Ellard is working for Pacific Petroleum Oil Co.

Also another war bride is Mrs. Pat Jackson, who also came from the old country, Ireland, and also made her first home in Cold Lake, but is now living here as her husband is employed by the Commonwealth Drilling Co.

There are several others here from England too, such as Michael Woodhead from England. Michael is delighted to be away from the food rations.

Another big favorite of the boys is F. T. Smith of England. He is a caretaker of Imperial Oil Producing Dept. quarters and is always willing to do favors for the boys.

Surprise Party

REDWATER.—A housewarming surprise party was held for Mr. and Mrs. S. Lisachchuk at their home. Attending the party were about 32 couples who were friends from the neighborhood and despite the cold weather a good time was had by all.

Dancing took place the greater part of the evening with a few short speeches. The couple was also presented with a dinner set. Mr. and Mrs. Lisachchuk expressed their word of thanks and appreciation to their friends.

New CNR Diesel Here

REDWATER.—A new diesel train locomotive is now operating between Kerensky-Redwater to Edmonton. The locomotive is chiefly used for oil transportation and the advantages are that it is not necessary to go to the end of the railway line to turn around. All the engineer does is to get in either end and the locomotive is run backward or forward by hauling the locomotive built so it will have a very different blow from ordinary train engines.

Amateur Program Is Real Success

HYLO.—The amateur show held at Hylo last Friday was a real success. First prize was given to Norma Rayment and we all agree that Norma did a wonderful job of "Galvestone Rose." Tied for first prize with Norma was Grace Strathchuk who sang "Zachias Was a Little Man." Though there was a huge crowd, little Grace got up on the stage and sang as if there was not a person present.

Margaret Tichonuk took second prize. This is twice in a month that Margaret has taken second prize at an amateur. She sang "Rose of Old Pawnee." "The Happy Gang" took third prize.

Seven youngsters rigged up an orchestra consisting of a trumpet, washboard, violin and three combs—drums were a dishpan and some tin cans. Phyllis Bjorgan, Grace Grandish, Sherill Lozinski, Janet Lozinski, Martin Bjorgan, Wilf Woychuck and David Lozinski did a wonderful job on "Four Leaf Clover" and "The Old Grey Mare."

Tied for third place was the School Girl Choir which sang "Little Brown Church."

The judges, who were Mrs. Elda Keen, Rev. Father Ouellet and Mr. L. G. Hall, superintendent of schools, said they had a hard time judging as good talent was displayed. While the judges made their decision everyone joined in a sing-song. Our yodelling cowboy, Mr. Johnny Rosychuk, also sang a few songs. Mr. Piquette from Venice and his three girls, Lorette,

Madeline and Pauline, sang the old French song, "Alouette." Mr. Marini sang a short Italian song.

All in all the amateur was a great success. Everyone enjoyed themselves. The master of ceremonies, Mr. Simballist, principal of the Senior School at Hylo, did a wonderful job of announcing and certainly put all contestants at ease when at the opening of the program he sang "Let's Sing Again."

Well done, Home and School organization!

Talent Is Found Saturday Night

MORINVILLE.—On Saturday night, despite the cold wind and rapidly falling temperature, a capacity crowd gathered in the Parish hall where the second annual "Search for Talent" was held.

The evening's entertainment was made up of 25 acts by local contestants and an hour and a half of mirth and merriment in a show presented by a group from CFRN.

The contestants with their act numbers are: 1, Stella Meunier, Morinville; 2, "Les Hirondelles," Morinville; 3, Roy Syllski, Morinville; 4, Rosie Spargo, Alcomdale; 5, Maureen Ferguson, Morinville; 6, Albin Kelsner, Morinville; 7, Kay and Lena Schwab, St. Albert; 8, Ivy Libke, Alcomdale; 9, Norman and Freddy Kelsner, Morinville; 10, Helen Brown, Vimy; 11, Rita Bachand, Legal; 12, Dena Bokenfroh, Cardiff, Florence Kelsner, Morinville.

13, Vivian Rosca and Johnny Seminkuk, Nestow; 14, Blanche Ricard, Morinville; 15, Jean Champagne, Morinville; 16, Betty Kelsner, Morinville; 17, Priscilla Gibeau, Sheila Reid and Sandra Reid, Morinville; 18, Hanare Hebert, Villeneuve; 19, Marie Gervais, St. Albert; 20, Gordon Lindgren and Klas Klansen, Edmonton; 21, Romeo and Adolph Boissonault, Morinville; 22, Muriel Walker, Morinville; 23, Maurice Rippe and Albert Antell, Morinville; 24, Alice Terreault, Volmer; 25, Raymond Coma, Riviere Qui Barre.

NEW SAREPTA NEWS

NEW SAREPTA.—A bingo and card party was held in the New Sarepta village school. First prizes at which were won by Miss Gladys Soch and Mr. Herbert Kadatz and consolation prizes went to Darwin Elgert and Wesley Knopp. First prizes in bridge were won by Mrs. F. Schlender and Mr. G. Radke and consolation prizes by Mrs. Wegner and Mr. M. Harko. Proceeds were towards a movie projector for the school.

Mr. Alvin Harko had the misfortune to lose his chicken house and 450 chicks by fire. The fire, which was unobserved, apparently started in the early Monday morning hours, as the building was completely burned when Mr. Harko got up Monday morning. The building was partly covered by insurance.

Miss Lorraine Knopp was a week-end visitor at her home. Mr. and Mrs. L. Wensel and Mr. and Mrs. A. Schlender returned from a trip to the United States Monday night.

Mr. John Dublanko won the majority of votes for municipal councillor.

The Lutheran League held its regular Sunday meeting with 19 members present.

Due to the absence of the president, Vernon Schlender, the vice-president, presided. An entertainment committee of Joy Birkholtz, Gladys Soch, Vernon Schlender and Johnny Klingbeil was elected. The meeting concluded with games and a sing-song.

Mrs. J. Musialek and Frank were Camrose visitors. Mr. Fred Knopp is in a Camrose hospital.

Mr. and Mrs. William Janke, Barbara and Billy were Sunday guests of Mr. and Mrs. Alf Janke. Mr. Bernard Elgert has purchased a '49 Meteor car.

Miss Meta Kadatz of Vancouver, is visiting at the home of her parents, Mr. and Mrs. Charlie Kadatz.

St. Catharine's Hospital News

LAC LA BICHE.—Following is news from St. Catharine's hospital:

Births: To Mr. and Mrs. Gordon Anderson of Brierville, a son, on March 6; To Mr. and Mrs. Charles Elkeberg of Lac la Biche, a daughter, on March 6.

In for Operations: Wilfred Bourassa, Lac la Biche, doing fine; Mrs. Mike Ilinski, Blue Jay, and Georgette Amiot, Egg Lake, doing fine. Receiving Medical Treatment: Cecile Rudizer, Lac la Biche; Alice Tisi, Lac la Biche; Mrs. Edward Diesel, Lac la Biche; Wayne Wilson, Lac la Biche; Mrs. Antonio Zevola, Venice.

New 'Rocket' Engine For Oldsmobile

OSHAWA, Ont. — Entirely new body designs in all series and introduction of the famed new "Rocket" engine highlight the new 1949 "Futuramic" Oldsmobiles which are now coming off the production lines here at the big plant of General Motors of Canada.

E. J. Umphrey, director of sales, has announced that the new "Rocket" power plant, which will be available on a limited number of "Futuramic" series "88's", is the same high-compression, eight-cylinder, valve-in-head engine which GM engineers and research experts have had under process of development for several years.

According to Mr. Umphrey, the compression ratio of the "Rocket" is 7.25 to 1. With only minor me-

New Dodge Promises Smoother, Safer Ride

Better vision through higher, wider windshields, and a smoother ride as a result of longer wheelbases and better insulation, are outstanding features of the new 119 1/2 inch wheelbase Dodge DeLuxe and Special DeLuxe models. Seats are wider and there is more head and leg room, front and rear. "You can get in and out with your hat on" Dodge advertises. Four-Door Sedans and Club Coupes (as shown above) are available in both the DeLuxe and Special DeLuxe series in a choice of eight distinctive body colours.

chanical modifications, this ratio can be stepped up in future models to 12 to 1, as soon as higher octane fuels are available.

"The 'Rocket' engine," Mr. Umphrey revealed, "is the most powerful ever installed in an Oldsmobile. Its 135 horsepower is an increase of 20 horsepower over Oldsmobile's former eight-cylinder engine."

While the "Rocket" engine is available in the series "88," the series "76" also offers an improved "Big Six" engine.

The Futuramic "76" series consists of seven body types. These include four-door sedan; de-luxe four-door sedan; four-door town sedan; de-luxe four-door town sedan; two-door club sedan; de-luxe two-door club sedan; club coupe. Three body styles are available in the Futuramic "88" series. These are de-luxe four-door sedan; de-luxe four-door town sedan; de-luxe two-door club sedan. One of the most conspicuous style changes is evident in the front end. The leading portion of the front fender has been re-designed to accommodate head-lamp, parking light and air intake louvers in one attractive element. This new arrangement simplifies the frontal

appearance and accents the "Futuramic" effect of broadness and lowness. In addition, an entirely new world symbol has been mounted on the forepart of the hood. This symbol follows the general design of Oldsmobile's new "Futuramic" emblem.

Both Series "76" and "88" have an entirely new Fisher body of "Futuramic" design, with greatly improved vision for all passengers and wider seats for increased riding comfort. The rear seat, for example, is seven inches wider than the previous "76" model. The 1949 Series "76" "Futuramic" Oldsmobile has a wheel-base of 119 1/2 inches and an over-all length of 202 inches. New appointments in the models of both series include an improved steering column, which encloses the hydraulic drive control shaft and the automatic shut-off for the direction signal.

This year, Oldsmobile will celebrate its tenth anniversary as the originator of hydraulic drive. This General Motors development with its safety-first acceleration feature "Whirlaway" will again be offered on all models. The Series "76" will continue to offer G.M. Hydra-Matic drive as optional equipment. Hydra-Matic is standard equipment on the Series "88."

Farm Income Up

Preliminary figures for 1948 place the gross income of Canadian farmers at \$2,835 million and the net income from farm production at \$1,743 million. The comparable figures for 1947 were \$2,214 million and \$1,235 million. The figures for 1948 are the highest in the last 20 years.

Soviet Grain

On January 20, 1949, the Central Statistical Administration of the Soviet Union published its crop returns in actual figures, a departure from the cautious announcements of former years when the crop results were shown only as improvement percentages.

The total harvest of all grain crops for the Soviet Union amounted to about 126 million tons, just short of the production of 1940. The increase comes from better than normal yields and a greater acreage, which in 1948 exceeded the previous season, by about 34.1 million acres. The 1947 crop acreage exceeded that of 1946 by 25 million acres.

Danish Butter

Notwithstanding a decline in dairy production as a result of the 1947 drought, exports of Danish butter increased considerably in 1948. This was made possible by more stringent rationing. Official returns for 1948 show that butter exports amounted to 105 thousand tons.

Prime Minister to Visit Edmonton

Canada's new first minister of the Crown, Rt. Hon. Louis St. Laurent is scheduled to visit in Edmonton on one day in April.

He is due to arrive in the city at 10:00 a.m. Monday, April 11th. He will be guest of the Canadian Club, Chamber of Commerce and Kiwanis Club at noon Monday. A public reception will be held for him in the afternoon and a public meeting in the evening.

The Prime Minister will leave Edmonton at 11:00 a.m. Tuesday, April 12th.

December Feed Shipments

Shipments of prepared stock and poultry feeds in Canada totaling 2,106,477 cwt. during December were the lightest since July. Sample survey figures of the Dominion Bureau of Statistics show that February and March were the only months of 1948 with shipments below those of December.

The volume of concentrates continued high, however, with the Maritimes and Ontario absorbing larger quantities than at any other time during the year.

The teaching staffs of day schools under provincial control in Canada consist of about 75,000 teachers. Only slightly more than one-fifth of them are men.—Quick Canadian Facts.

Canada produces more nickel, more asbestos, more newsprint and more platinum than any other country.—Quick Canadian Facts.

In Canada 92 per cent of personal income from all sources goes to persons who earn less than \$5,000 a year; 85 per cent to those earning less than \$3,000.—Quick Canadian Facts.

In the year the war started, 1939, net corporation profits (after taxes) were 11.4 per cent of the national income in Canada. In 1946, first year after the war ended, the same profits were 7.8 per cent of the national income.—Quick Canadian Facts.

KENTUCKY BABY

Victor Mature, currently co-starring with Betty Hutton in Paramount's "Red Hot and Blue" was born in Louisville, Ky., on January 29, 1916.

MARCH WINDS Make Good Hunting for CANDID CAMERA FANS

Hearty Early Meals

By RUTH WHALEY, D.H.E.

For thrifty use of food, eat most heartily early in the day. A nourishing breakfast is not only important for health and morale; it also means most efficient use of food.

Food eaten early in the day is digested and absorbed largely during the most active daytime hours, studies at the University of Chicago have shown. Therefore, the body is likely to get the most good from food eaten at breakfast and at noon.

In contrast, food eaten at night shortly before going to bed is digested and absorbed largely during the period when the body

needs it least and when the excess is likely to be deposited as fat. This warning goes out to over-nourished as well as the under-nourished.

It means that anyone who goes shy on breakfast, slights lunch and then loads up on a heavy meal in the evening may actually be wasting food because he cannot use it to best advantage.

Nutritionists of the United States Department of Agriculture says that children who go with little or no breakfast are likely to be undernourished because they cannot take a large enough quantity of food at the other two meals to supply their daily needs.

The forgotten or hasty breakfast and the skimpy lunch may be responsible for Junior's drowsiness and low grades at school, June's poor appetite and loss of weight, Father's morning temper, Mother's overweight, and even Grandma's edginess or hurt feelings.

Feed Production 1948

Based on sample survey reports of the Dominion Bureau of Statistics indications are that prepared stock and poultry feed production in Canada during 1948 was approximately 1,662,500 tons. This is larger than the 1946 production of 1,585,782 tons. Figures for 1947 are not available but these would no doubt show that 1948 feed production fell off considerably.

UNIVERSITY NEWS COLUMN

A series of articles on the work of the various departments of the University of Alberta.

5-DEPARTMENT OF AGRICULTURAL ENGINEERING

Engineering has influenced greatly the development of agriculture. The profession of agricultural engineering is comparatively new. In fact, it may be looked upon as a product of this century. It has been defined as the art and science of engineering applied to agriculture. The scope of this field covers farm buildings, farm power, farm machinery, farm electrification, and in some places soil and water control and conservation. At the University of Alberta, courses are available to agricultural students in farm buildings, farm machinery, and farm motors. A brief outline of the objectives of each course might be of interest.

The course in farm buildings provides an opportunity for training in draughting, elementary surveying, and the planning of farm buildings.

The farm machinery course involves a study of all lines of tillage, seeding, fertilizing, harvesting and threshing machinery. It is not practical to study the various machines without considering the kind of work each should be expected to do and how each may be able to fit in to best farm practice adapted to the various sections of the province.

The course in farm motors includes a study of the source and application of mechanical power on the farm, the object being to enable the student to become familiar with the fundamental principles of the internal combustion engine (valve timing, carburetors, ignition, etc.), the study of fuels, and the testing of engines on the hydraulic dynamometer.

Members of the department have co-operated with the Provincial Department of Agriculture in supplying assistance in judging at ploughing matches and farm machinery field days, and with short courses, and also supplied speakers at meetings of implement dealers, land inspectors, and at general meetings organized by the Department of Extension, University of Alberta. Contributions have been made through the publication of such bulletins, as Plows and Plowing, Rope-work for the Farm, Binder and Kestler Troubles, and real help has been given to the farmers of the province that has resulted in financial savings in the operation of machinery in the field.

Considerable time is spent answering farmers' questions in letters and interviews on special problems on farm buildings, machinery, and power.

The field of agricultural engineering should be developed very rapidly in the immediate future. Farms are becoming highly mechanized and many problems are awaiting practical solutions.

The 1946 census for Alberta shows that the total valuation for the 90,000 farms in Alberta was 958 million dollars. Nearly one-half of this valuation was in the land. The livestock were valued at 141 million dollars. The farm buildings were valued at 181 million dollars, while machinery was 163 million dollars. The total for buildings and machinery was 344 million dollars, about 250 per cent of the livestock values. The investment in buildings and machinery is steadily increasing. The 1946 figures are nearly 100 million higher than 1941, or an increase of 40 per cent. The farm requires a high investment in proper buildings and machinery to reduce

labor and increase production. The Department of Agricultural Engineering at the University of Alberta should be equipped to aid and advise farmers along these lines and the opportunity for research into agricultural engineering problems should be expanded as soon as possible to provide a real service to the farmers in Alberta.

Garden Seeds

Regulations under the Seeds Act governing the sale of seed of garden vegetables and field roots, provide that each packet must be labelled to show the year in which the seed was tested, and the percentage germination — if it is lower than the safe minimum prescribed for each kind. These provisions are for the protection of the buying public. A high germination is an important factor in the growing of crops.

The Plant Products Division, Dominion Department of Agriculture, is responsible for the enforcement of all provisions under the Seeds Act, and may detain, or confiscate, seed stocks found inferior to the prescribed standards, or those not properly labelled.

Alberta Naturalist Kerry Wood to Broadcast Weekly

Kerry Wood, well known author of Red Deer, Alberta, naturalist and C.B.C. commentator, will broadcast a series of weekly talks over CFCN, Thursday evenings at 10:15 p.m.

This new program, commenced March 17th, and is known as "Around Alberta." It will be dedicated to our lovely province and the fine people who live here. Mr. Wood will chat about Alberta and Albertans.

These talks will be made possible by the Calgary Power Limited.

RADWAY NEWS

RADWAY — Radway citizens have been shocked at the recent tragedy which has befallen T. Tancowny. Deep sympathy has re-echoed throughout all outlying districts in which he has served as trucker for over 15 years. We are glad to hear that he is convalescing and extend our wishes for a speedy recovery.

Mr. P. Mersky, prominent hardware merchant, has been re-elected mayor of Radway.

Radway is fortunate in having acquired two new implement agencies. Mike Rudky, of Mike's Cafe, is agent for the Rockall and Leader Tractors and Machinery, while Pete Oball from Radway Garage has obtained the agency for the famous Gibson line of tractors. Both agents have tractors on display.

Radway hall, under the management of the local Catholic Unity, is undergoing a complete renovation. The stage has been removed, consequently the floor space has been extended. A balcony has been built and the ceiling raised. The walls are insulated and will be completed with Ten-Tect. As a result the whole building had to be re-wired.

A new permanent movie projector has been installed with shows to the public being open every Friday and Saturday here, after. Most of the labor is a-cord of local members. We can anticipate a fully-modernized recreation centre when the building is completed. Simultaneously another movie projector has been installed in the community hall, with shows open every Friday.

Some work is being done on the new school in Radway. At present it is being wired by Huchulak's Electric and other minor work has been resumed.

Friday afternoon of March 4, witnessed the scene of a social whirl in Old Radway School where Division II of Radway were entertained as guests. Each child was overflowing with hilarity from the games, dances, relays and songs, while both teachers mused over the childish ways.

Bill Hill Cafe Opened

REDWATER — Bill Hill who formerly operated a cafe at Mayerthorpe, Monday opened up a fully modern cafe at Redwater. On his first day of business Bill realized that business was good and that he would have to hold a bigger staff in order to be able to serve the customers promptly.

The cafe has relieved a little the overcrowded situation of other eating places here.

Also about the middle of next week another cafe will open up The Mess Deck, located by the Imperial Oil camps.

Tank Builders Leave Oil Fields

REDWATER — The Standard Iron Works tank builders are leaving Redwater due to all tanks built by them being of metal. But oil in this field contains sulphur and chemicals which prevent steel tanks from being used, so only galvanized tanks will be used from now on. The Standard Iron Works does not make galvanized tanks.

Calgary Light Bill Received

REDWATER — For some two months now the people in the town here have enjoyed the comforts of electricity but finally the bills have caught up to them. This week the bills came and some of the first paying their bills were Nick Ziniuk and Mike Rasko.

Most everyone was quite satisfied that the cost was reasonable. The bill covered a period of two months. The line is now being extended to Egremont and Thorhild which in a very short time will also have Calgary power.

EGG LAKE NEWS

EGG LAKE — Miss Georgette Amiat has returned home from the Lac la Biche hospital where she was operated on for an appendix.

Mr. Wilfred Bourassa has returned home from Lac la Biche hospital where he had a major operation.

Mr. A. L. L'Heureux has gone to Edmonton to visit his wife who is in the General hospital. He will return home with her soon.

Mrs. Ferdinand Plamondon has returned to her home in Plamondon, and Miss Rose Dionne has taken her place at the home of Mr. A. L. L'Heureux.

Mr. and Mrs. Armand Richard are moving into their new home near Plamondon. We wish them our best.

Denis Amiot was home for a few days from camp. He brought one his friends with him, Louis Prefontaine of Legal, who is working at the same camp.

W.A. NEWS

LAC LA BICHE — The Lac la Biche Women's Auxiliary of the Anglican Church held the monthly meeting on the second Thursday of March at the home of Mrs. Moisey. After Bible reading, prayers and a short business discussion, Miss Mackinnon gave a summary of the missionary work of the church in China. This was followed by a game and a delicious lunch served by Mrs. Moisey.

The next meeting will be held at Mrs. Swift's home.

Highway Disaster Claims One Life

OPAL — A highway collision claiming the life of one man and seriously injuring another took place on a curve one-half mile west of Opal corner a week ago.

Dead is Mr. Harold Frieze of Turner Valley and seriously injured was Thomas Tancowny of Radway.

The truck operated by Mr. Frieze was bring in a load of pipes to the new Redwater oil field, while the truck driven by Thomas Tancowny was heading for the city loaded with bran and shorts.

Due to the fact that the road at the disaster point is heavily grown with bush made it difficult for the drivers to see each other.

The first to arrive at the scene was Lyle Lawrence, a truck driver from Opal. He and his passenger, George Nakamura, worked hard to rescue Mr. Tancowny who at that moment was heavily crushed by the steering wheel, and was calling for help.

After they rescued the man Mr. Lawrence did not leave the scene until he was sure that police help was on the way.

Evidently nothing could be done to save Harold Frieze who was dead upon their arrival.

May Open Restaurant

LAC LA BICHE — The temporary quarters that the Lac la Biche Mercantile occupied on the main street in this town have now been vacated, as they have moved into their new store. This store has been built on the premises of the one which burned down on August 4 of last year.

It is understood that an Edmonton man may open a restaurant in the place that has been occupied by the Lac la Biche Mercantile since their old store burned down.

Residents Return From Vacation

MILLET — Mr. and Mrs. John Walker have returned from a month's holiday which they spent visiting friends and relatives in Florida and California. They were very glad to get back to Alberta's cooler climate.

In spite of the growth of fur farming, wild life still produces the greater portion of Canadian furs. — Quick Canadian Facts.

On the Oil Scene

OPAL — According to word received, Harry Rodney Morris, geologist in the new Redwater oil field, will be widely known as district geologist.

He and his family are living at Opal at the present time, due to the fact that housing accommodation is very scarce in Redwater. They expect to move into their new premises sometime during the summer months when the Imperial Oil Co. builds living quarters for the crew.
